Content of Delivery RTR

**CUT1600S RTR**
- Machine fully assembled and tested
- Machine control, power supply
- Power supply wire
- Machining Software, CAD-Software
- CAM-Software 30 day Trial version
- Manuals, installation instructions, tutorials
- 1-year technical email and phone support
- 2-year warranty

The assembling of the machine takes about 30 minutes. A Windows Computer is needed to run the cutting machine. This computer is not part of the delivery.

Optional Accessories
- Windows PC with software
- CAM-Software
- Teamviewer training
- Training on site

Delivery
- About 1 weeks after receiving payment
- Insured transportation via Schenker
- Pickup available

Optional the following accessories are needed to run the machines
- Relay Box - wirelet
- Cutting Wire
- Software
