Technical Parts

Highlights

The cutting arms can be equipped with 10 wires, optionally even with 20, as required. EPS blocks are processed **quickly** and **economically**. The optional **side cut** trims the block length.

- ✓ Heavy duty industrial quality machine with all-round open machine table.
- ✓ Block cutter with 10 wires
- ✓ Contour cuts with 10 wires
- ✓ Two-sided spring-loaded cutting wire
- ✓ Easy to use (Plug and Play)
- ✓ Windows compatible
- ✓ Compatible to all CAD Programs
- ✓ Supported files: **DWG, DXF, PLT**

Delivery

The Styrofoam cutting machines of the CUT 5000S series are not only impressive in terms of performance. The **standard equipment** is also impressive.

The machine is **manufactured, checked and tested** by us and then delivered packaged in modules. Depending on the model, the montage, **local setup and initial operation** can either be done by yourself or by one of our experienced technicians within a few hours.

This is what is included in the **delivery**:

PC-Working table

Maschinensoftware

Power supply

Computer

optional

CAM-Software

Technical Data

Model	CUT 5000S
<i>Dimension (L x W x H)</i>	304x265x250 cm
<i>Travel forward/backward (X)</i>	1.400 mm 2.000 mm
<i>Travel up/down (Y)</i>	1.400 mm
<i>Wire length (Z)</i>	2.100 mm 2.600 mm 3.100 mm
<i>Number of axes</i>	2
<i>Number of wires (optional)</i>	10 (20)
<i>Side Cut</i>	optional
<i>Electrical connection</i>	AC 220V/380V, 50-60Hz
<i>Electrical consumption</i>	4.500 W
<i>Weigth max.</i>	900 kg
