Facade elements & profiles

Coated Styrofoam crown moulding adds value to your projects, provides lasting protection, and offers **significant cost savings** over an uncoated Styrofoam moulding.

Our commercial coating machine TC 4800CB is for **constant continuous use** in medium to large productions and creates up to 10 linear meters per minute.

They are easy to clean and require no further maintenance.

The following materials can be coated:

Polystyrene
EPS, XPS

Styrofoam
XPS

Neopor
EPS

Highlights

The **extremely stable and robust design** makes the TC 4800CB the first choice for medium to large, flexible productions with different requirements. The machine is ready to use within 30 minutes.

- ✓ Stucco moldings up to 2,500mm in length
- ✓ Easy to clean
- ✓ Adjustable speed
- ✓ Easy to use (plug and play)
- ✓ Compact design
- ✓ Strong industrial drive
- ✓ Non-slip belt

Content of delivery

The machine is **manufactured, checked, tested by us** and then delivered packed on a pallet. You do the on-site assembly and commissioning.

The standard equipment includes all components required for operation and is **plug and play**:

Technical data

Model	TC 4800CB
<i>Machine size (L*W*H)</i>	<i>5.500x1.500x1.800mm</i>
<i>Profile length max.</i>	<i>2.500 mm</i>
<i>Profile width max.</i>	<i>1.000 mm</i>
<i>Profile height max.</i>	<i>500 mm</i>
<i>Working speed</i>	<i>Variable bis 2 m/min</i>
<i>Power connection</i>	<i>110V - 220VAC, 50-60Hz</i>
<i>Power consumption</i>	<i>1.500 W</i>
<i>Weight</i>	<i>500 kg</i>
